DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant's variables X_f and X_{fq} are not defined in the claims. Moreover, they are vague as to what they are equal to in the specification. Are these supposed to absolute values and squared absolute values. If so, they should be incorporated in the specification and clearly stated as to their definition .
